**People's Earth Day Environmental Justice Walk Against Cancer and Pollution**  
**Saturday, April 26, 2014 – 11 am Bayview Hunters Point, San Francisco**

On Saturday, April 26, 2014, please join Greenaction, the Huntersview Mothers and Fathers Committee, residents, cancer survivors and grassroots groups from Bayview Hunters Point and other low-income and communities of color impacted by pollution as we come together for the People's Earth Day Environmental Justice Walk Against Cancer and Pollution. We will meet at 10:30 am in front of Martin Luther King Jr. Park, in the 5700 block of 3<sup>rd</sup> Street/Carroll in Bayview Hunters Point, San Francisco. The event starts at 11 am.

This event will be held in honor of our family members, friends and neighbors who have passed away or are suffering from cancer – and we will dedicate ourselves to stopping the pollution and injustice that causes so much cancer in our communities.

Everyone who cares about health, pollution, and environmental justice is welcome to join this event which will be held in the heart of Bayview Hunters Point, the San Francisco neighborhood that has borne much of the burden of polluting industrial operations and unsafe levels of toxic contamination.

The community can celebrate the big victory that closed the dirty PG&E Hunters Point power plant in 2006, but many pollution problems remain, including sites contaminated with cancer-causing chemicals and the threat posed by rising sea levels to neighborhoods due to the toxic sites on the waterfront.

We invite everyone to join, including residents, cancer survivors, community and grassroots groups, faith groups, youth, and elders. If your organization is willing to help out and participate, please send us an endorsement. Donations are welcome (make checks payable to Greenaction or donate online at [www.greenaction.org](http://www.greenaction.org) to help pay for the event.

**Thank you so much, and we look forward to seeing you at the event!**
