

Job Announcement: March 2020—Greenaction for Health and Environmental Justice

Air Monitoring Technician

Background

Greenaction for Health and Environmental Justice seeks to hire a part-time Air Monitoring Technician in the Bayview Hunters Point Community located in the heavily industrialized and residential southeast sector of San Francisco CA.

The technician will train and work to install/maintain 10 air monitors that will be placed across Bayview Hunters Point as part of the Marie Harrison Bayview Air Monitoring Project. The technician will also assist to implement the Identifying Violations Affecting Neighborhoods (IVAN) Air Network and its air quality monitoring applications.

Hours and Wage

This is a part time temporary position. The number of hours per week will vary depending on the need. Pay is \$24 per hour including training.

Job Responsibilities

- Troubleshooting and repair of 10 community air monitors in Bayview Hunters Point should they malfunction
- Performing routine maintenance of air monitors
- Maintain a regular log of the maintenance and troubleshooting of the community network
- Training on the maintenance and operations of monitoring technology will be provided

Qualifications

- High School diploma
- Fast learner
- Bayview Hunters Point/Little Hollywood legacy resident
- Ability to work outdoors and to work safely at heights
- Comfortable with computers and following simple software directions
- Understanding of wireless technology
- Ability to work independently when out in the field

Why Apply

- Flexible schedule
- Helping your community
