**TODAY, FRIDAY, SEPTEMBER 14, 2018 AT 12 NOON
IN FRONT OF LENNAR SHIPYARD WELCOME CENTER
11 Innes Court, San Francisco**

San Francisco, CA – Greenaction for Health and Environmental Justice and Bayview Hunters Point residents will hold an emergency press conference today, Friday, September 14, 2018 at noon in front of the Lennar “Shipyard Welcome Center” to respond to the discovery of a highly radioactive object next to homes at the former Hunters Point Naval Shipyard in an area declared safe and free of radioactive contamination for more than a decade.

Whistleblowers, community members and Greenaction have long raised concerns that the area might still be contaminated, yet city, state and federal officials repeatedly claimed it was clean...until now when it has become clear the government claims were false.

Greenaction and residents will address this explosive development and state our demands for what should happen next in this ever-widening scandal.
