# Bayview Hunters Point Community Petition

## We Demand Reinstatement of HP Shipyard Superfund Site Restoration Advisory Board!

We, the undersign residents of Bayview Hunters Point, call on the United States Navy to reinstate the Hunters Point Shipyard Restoration Advisory Board (RAB). The RAB provided invaluable community knowledge and input into the issues regarding the cleanup of radioactive and hazardous contamination.

The disbanding of the RAB denied residents meaningful opportunities for public participation in this public process and now, in light of massive fraud, the lack of adequate regulatory oversight and the absence of the RAB, the threat to public health and the environment is more serious than ever.

Public participation and engagement are needed and essential for a thorough and proper cleanup of the Hunters Point Shipyard Superfund Site.

# Bayview Hunters Point Community Petition

## We Demand Reinstatement of HP Shipyard Superfund Site Restoration Advisory Board!

We, the undersign residents of Bayview Hunters Point, call on the United States Navy to reinstate the Hunters Point Shipyard Restoration Advisory Board (RAB). The RAB provided invaluable community knowledge and input into the issues regarding the cleanup of radioactive and hazardous contamination.

The disbanding of the RAB denied residents meaningful opportunities for public participation in this public process and now, in light of massive fraud, the lack of adequate regulatory oversight and the absence of the RAB, the threat to public health and the environment is more serious than ever.

Public participation and engagement are needed and essential for a thorough and proper cleanup of the Hunters Point Shipyard Superfund Site.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

# Bayview Hunters Point Community Petition

## We Demand Reinstatement of HP Shipyard Superfund Site Restoration Advisory Board!

We, the undersign residents of Bayview Hunters Point, call on the United States Navy to reinstate the Hunters Point Shipyard Restoration Advisory Board (RAB). The RAB provided invaluable community knowledge and input into the issues regarding the cleanup of radioactive and hazardous contamination.

The disbanding of the RAB denied residents meaningful opportunities for public participation in this public process and now, in light of massive fraud, the lack of adequate regulatory oversight and the absence of the RAB, the threat to public health and the environment is more serious than ever.

Public participation and engagement are needed and essential for a thorough and proper cleanup of the Hunters Point Shipyard Superfund Site.
